

ficosturf

Turf biostimulant

Algae extracts with microbial complexes

NEW FORMULATION!

100% ORGANIC

Marine biotechnology for agriculture

We transform seaweed to regenerate and boost the soil, optimizing agricultural production

R & D

We investigate and develop innovative technologies with active principles from the sea that benefit agriculture

Profitability

We increase the return from crops in a sustainable way by applying seaweed and microbial complexes

Regenerate

We regenerate the soil, making course use more ecological

ficosturf

DATA SHEET

characteristics

ficosturf is a bio-fertilizer developed with BCB (Biological Crop Booster) technology that enriches the biological potential of the soil. As a result, there is an improvement in the implantation and development of the turf.

The product does not contain added chemicals. It does not come from the cultivation of GMO algae and the product does not contain genetically modified microorganisms

composition

Agarophyte seaweed extract*

* Used while manufacturing the bacteriological culture which is of pharmaceutical quality

Microbial complex: >10

- ✓ Sulfonitroning bacteria
- ✓ Aerobic mesophilic
- ✓ Lactic acid bacteria
- ✓ Funguses and yeasts

- Conductivity <2.5dS/m
pH: 3.0-4.0

benefits

- ✓ Transforms organic matter, which reduces thatching and the black layer phenomenon
- ✓ It's rich in microorganisms which aid the recovery and regeneration of microflora and microfauna in the soil
- ✓ Improves soil structure and nutritional balance
- ✓ Improves lake water conditions

methods of application

- Product applied by fertirrigation. Do not apply together with other treatment or fertilizers. Use dechlorinated water for the application
- The product should be applied with a phytosanitary application cart. Dilute at a maximum concentration of 10%
- If you apply fungicides/bactericides, wait for 7 days before applying the product ficosturf

dose

- Green and Tee: 50 l/ha per 2 months
- Fairways: 20 l/ha per year
- Lakes

* To estimate the application dose, ask the technical department at ensayos@ficosterra.com

Expiration: 12 months from the date of manufacture. Once opened keep in a dark and cool place, at temperatures below 22°C and consume within a maximum period of 3 months.

Warning: Sometimes it may happen that the transport of this product alters the activity of the microorganisms. This reason could lead to deformity of the container. This does not mean that the product is ineffective or is in bad conditions

presentation

Liquid product, presented in containers of 1,000 liters, 220 liters, 20 liters, 5 liters

storage

Store in a cool dry place | Avoid direct exposure to sunlight | Harmful if ingested | Once opened, keep with the lid closed and consume within a maximum of 3 months | Avoid contact with the eyes | S2 keep out of reach of children | S13 keep away from food, drinks, and animal feed

The product can be used in organic farming in accordance with Council Regulation (EC) number 834/2007 of June 28, 2007, on the production and labeling of organic products.
No CL300PAE-02
