Organic

Biotechnology for agriculture

We transform seaweed to regenerate and boost the soil
optimizing agricultural production

We apply principles of the sea
for use in agriculture

We increase the return from
crops in a sustainable way by
applying seaweed and
microbial complexes

Our BCB technology is valid
for all crops and
environments

ficosgreen

DATA SHEET

characteristics

ficosgreen is a bio-fertilizer developed with BCB (Biological Crop Booster) technology that provides growth-promoting substances to the crop. After its application, an improvement in the implantation and development of the crop is obtained, which allows increases return from the crop.

ficosgreen helps the application of herbicides and insecticides reach their full potential by alleviating their negative effects on crops.

composition

- ✓ Agarophyte seaweed extract*
* Used while manufacturing the bacteriological culture which is of pharmaceutical quality
- ✓ Microbial complex: $>10^7$ UFC
- ✓ Sulfonitroning bacteria
- ✓ Aerobic mesophilic
- ✓ Lactic acid bacteria
- ✓ Funguses and yeasts
- Conductivity <2.5 dS/m
pH: 3.0-4.0

benefits

- ✓ Improves return from crops
- ✓ Increases the number of nutrients in the rhizosphere
- ✓ Increases the plant's resistance to harmful pathogens
- ✓ Aids in the development and balancing of microflora and microfauna
- ✓ Provides the plant with elements of microbial synthesis

areas of application

- Apply the product using a phytosanitary application cart. The product is compatible with herbicide and insecticide applications. Do not apply together with fungicides/bactericides. Use dechlorinated water when applying.
- If you apply fungicides/bactericides, it is recommended to wait 7 days to apply ficosgreen.

dose

Alfalfa with irrigation:

- 20 l/ha, after the first cut
- 5 l/ha, after the 4th cut

Corn:

- 35 l/ha

Cereal:

3 l/ha, alongside the post-emergence herbicide (5 leaves)

Expiration: 6 months from the date of manufacture. Once opened keep in a dark and cool place, at temperatures below 22°C and consume within a maximum period of 3 months.

appearance

Liquid product, presented in containers of 5, 20, 220, and 1.000 liter

storage

Store in a cool dry place | Avoid direct exposure to sunlight | Harmful if ingested | Once opened, keep with the lid closed and consume within a maximum of 3 months | Avoid contact with the eyes | S2 keep out of reach of children | S13 keep away from food, drinks, and animal feed
