

cystium-k

Macrocystis pyrifera seaweed extract

Biostimulant for
for fruit fattening and fruit set

Low nutrient fertilizer(N-K)

Marine biotechnology for agriculture

We transform seaweed to regenerate and boost the soil
optimizing agricultural production

R & D

We research and develop innovative technologies, with active ingredients from the sea that benefit agriculture

Profitability

We increase crop profitability in a sustainable and environmentally friendly way

Crops

Our technology is valid for ecological and conventional crops

cystium-k

DATA SHEET

characteristics

Cystium-k® is a liquid biostimulant made from *Macrocystis pyrifera* algae with a high content of phytohormones and cations.

Its main functions are:

- Contribution of phytohormones for crop management
- Fertilization support

composition

✓ 100% *Macrocystis pyrifera* seaweed extract

- Nitrogen 0,1% p/p
- Phosphorus 0,00 p/p
- Potassium (K20) 1,3% p/p
- Polysaccharides 6%

benefits

- ✓ Improves crop yields
- ✓ Increases cell multiplication and differentiation in the early stages of growth
- ✓ Promotes the development of axillary branching, foliar mass and photosynthetic capacity
- ✓ Increases root hairiness
- ✓ Prompts the natural defenses of the crop into action

methods of application

- **Foliar:** apply in vegetative growth periods by sprayig
- **Irrigation:** introduce in fertigation systems
- **Shake before using**

dose

- **Foliar / soil**
- **Extensive crops** 1-2lts/hectare/application
- **Intensive crops** 1-2lts/hectare7application

* Depending on the crop, the number of applications may vary

* For specific questions about the application, consult our technical department: ensayos@ficosterra.es

Expiration: 2 years from the date of packaging. Once opened, keep in a dark and cool place at temperatures below 22°C and consume within a maximum of 9 months.

presentation

Liquid product, presented in 20 lt, 5 lt, 1 lt

storage

Store in a cool, dry place | Avoid direct exposure to the sun | Harmful if ingested | Avoid contact with the eyes | S2 keep out of reach of children | S13 keep away from food, drinks, and animal feed

The product can be used in organic farming in accordance with Council Regulation (EC) number 834/2007 of June 28, 2007, on the production and labeling of organic products. No CL300PAE-02

Product suitable for Biodynamic Agriculture (DEMETER / 2020 registration)
Registration ref: Registered in Ireland as Low Nutrient Fertilizer of SI 248/1978. FERT / 2020/005
Marketed by mutual recognition

Produced and Marketed by:
